Q5 Here is a brief synopsis for our version of Measure for Measure: * Life in the Martian city of Vienna is harsh. The citizens are trapped under a bio-dome, with limited supplies and space. Their beloved leader, Duke Vicentio, has ruled them benevolently, but, because of his lenient attitude, vice and licentiousness have taken a grip on the city. To stem the tide, the Duke hands the reins of power to Lord Angelo and takes his leave of the city. Lord Angelo – part human, part robot – rules over the city with an iron rod and a cold, calculating mind, invoking long since forgotten laws to destroy the brothels and curb the debauchery. One victim of these reinstated laws is Claudio, whose life is forfeit after he gets his girlfriend pregnant. Claudio's only hope is his sister, the novice Isabella, who pleads to Lord Angelo on Claudio's behalf. Angelo refuses to hear Isabella's cries for mercy, but one glimmer of hope remains as he struggles with hitherto unknown emotions. Angelo falls in love with the beautiful and virtuous Isabella, and offers to save Claudio's life if Isabella will sleep with him. So ensues a tale of betrayal, lies, lust and love, as Isabella fights to save her brother and her chastity. *** Does the synopsis interest you?**
